Who's it for: People with a variety of memory cards from a variety of digital lifestyle devices.

Wallet magnet: 9-in-1 USB card reader that works with SD, SDHC, MMC, MMCplus, MMCmobile, RS-MMC, microSD, and miniSD, MMCmicro; USB 2.0, SD 2.00, high-capacity SDHC and MMC 4.1 standards; easily fits in your pocket; plug and play; acts as a memory card container as well.

On second thought: Doesn't read XD, Memory Stick and Compact Flash.
