PRODUCT DISCONTINUED - FOR INFORMATION ONLY

Protect your data like
the warriors guard their empire!

The limited edition DataTraveler® Terra Cotta Warrior 4GB USB Flash drive features the Terra Cotta Warriors of China, among the greatest archaeological finds of the 20th century. The drive has the image of a warrior discovered in one of four pits outside the tomb complex of China's First Emperor, Qin Shi Huang (259–210 BC). Thousands of terra cotta warriors were made and buried with the Emperor in his tomb, to protect him throughout eternity. Since their discovery in 1974 by local farmers, the terra cotta figures have been termed the "Eighth Wonder of the Ancient World." Dating from 210 BC, they were discovered near Xi'an, Shaanxi province in China near the Mausoleum of the First Qin Emperor. The figures vary in height (184–197cm or 6ft–6ft 5in), according to their role; the generals are the tallest. The figures include warriors, chariots, horses, officials, acrobats, strongmen, and musicians. More than 7,000 figures have been discovered and can be viewed in China, or at special installments throughout the world.

The DataTraveler Terra Cotta Warrior Flash drive

The DataTraveler Terra Cotta Warrior Limited Edition USB Flash Drive lets you store, transfer and carry your digital files. Available in a 4GB capacity, this limited edition drive is engraved with a Terra Cotta Warrior on a sleek zinc case and features data transfer rates of up to 15MB/sec. read and 7MB/sec. write⁴. Transfer photos, files, music and more and rest assured that your data is protected when you utilize the included password protection software, SecureTraveler! SecureTraveler allows you to create and access a password protected secure area of the drive, called a "Privacy Zone."

Multifunctional and easy to use, DataTraveler Terra Cotta Warrior is backed by legendary Kingston® reliability plus a five-year warranty and 24/7 tech support.
