

HyperX Skyn Mouse Pad

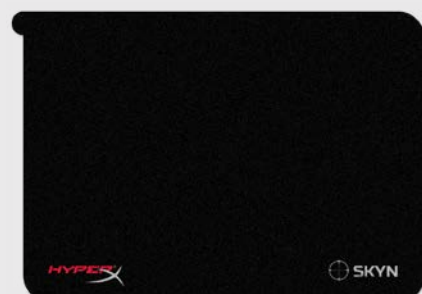

Control & speed – hard surfaces for hard gaming.

HyperX™ has the Skyn to win with two mouse pads available individually or in a dual pack at an unbeatable price. Choose the control surface for increased gaming accuracy or the speed surface for fast-moving action. Both mouse pads are ideal for noobs or pros and feature ultra-thin material designed to keep you winning for hours.

Both surfaces are anti-microbial to prevent dirt and bacterial build-up and keep your game clean. They're compatible with optical, wireless or laser mice and provide a seamless transition between desktop and mouse pad. An adhesive bottom lets them stick to most surfaces to stay firmly in place and lift off easily without any residue.

HyperX Skyn is backed by a two-year warranty, free technical support and legendary reliability.

- > Compatible with optical, wireless or laser mice
- > Ultra-thin form factor
- > Two mouse pads (one for control, one for speed)

- Suitable for casual to hardcore gamers, as well as workstation users
- Control surface increases accuracy
- Speed surface optimises fast moving actions
