DataTraveler 111

Great for:

- Everyday use
- Document storage
- Storing and transferring music, photos, presentations and more

Features/specs on reverse >>

An affordable transition to USB 3.0.

Kingston's DataTraveler® 111 (DT111) USB Flash drive is compliant with next-generation USB 3.0 specifications, to take advantage of USB 3.0 ports in newer notebooks and desktops. It lets you quickly transfer all your data, from documents and presentations to music, photos and more.

The first Kingston® 3.0 USB Flash drive to offer an 8GB capacity, DT111 features a cost-effective hardware design so only a minimal investment is required to transition to a satisfying USB 3.0 experience.

DT111 is also backwards compatible with USB 2.0 systems to maximise current and future computer investments. It's backed by a five-year warranty, free technical support and legendary Kingston reliability.

-
- > Ideal USB 3.0 starter storage device
 - > From 8GB to 64GB

DataTraveler 111

DT111/16GB
DT111/32GB
DT111/64GB

¹ Minimum quantity required. Performed at the factory.

² Please note: Some of the listed capacity on a Flash storage device is used for formatting and other functions and is thus not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Memory Guide at kingston.com/Flash_Memory_Guide.

³ Requires a host device with a USB 3.0 port.
