DataTraveler Elite 3.0

Superior speed, practical price.

Kingston's DataTraveler® Elite 3.0 USB Flash drive is designed based on the USB 3.0 standard and is an economical choice for fast, multi-stream data transfer. It's ideal for desktops and notebooks with USB 3.0 ports and also reduces data transfer times on systems with USB 2.0 ports.

With consumers using increasing amounts of HD video, digital artwork, music libraries and presentations, computers are required to keep pace with higher performance connections. USB 3.0 technology delivers a higher transfer rate to support the new usage and larger media files.

DataTraveler Elite 3.0 features a convenient, capless design with a slider and is backed by a five-year warranty, free technical support and legendary Kingston® reliability.

-
- > USB 3.0, backwards compatible with USB 2.0
 - > 70MB/s read, 30MB/s write (USB 3.0)

¹ Conditions apply; contact your local sales representative.

² Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Guide at kingston.com/flash_memory_guide.

³ Speed may vary due to host hardware, software and usage.

⁴ Requires a host device with a USB 3.0 port
