

Kingston DataTraveler 310

kingston.com/flash

flash

Store more — with the highest capacity
Flash drive available.

*Based on Internal Testing

Kingston's new DataTraveler® 310 USB Flash drive features 256GB capacity, making it the highest capacity drive available on the market. There's plenty of room for movies, high-resolution photos, applications, graphics and other large files — all on a compact device not much larger than a standard USB drive.

DataTraveler 310's fast transfer rates mean users spend less time copying and transferring files. And its Password Traveler software protects data by allowing users to create and access a secure, password-protected area on the drive called a Privacy Zone. No administrator rights are required.

DataTraveler 310 is backed by legendary Kingston® reliability plus a five-year warranty and 24/7 tech support.

Compatibility Table

Operating System	File Transfer	Password Traveler
Windows® 7	Yes	Yes
Windows Vista® (SP1, SP2)	Yes	Yes
Windows XP (SP3)	Yes	Yes
Mac OS X v.10.5.x+	Yes	No
Linux v.2.6.x+	Yes	No

Features/Benefits:

- **Capacities**¹ — 256GB
- **Fast**² — data transfer rates of 25MB/s read and 12MB/s write
- **Dimensions** — 2.90" x 0.87" x 0.63" (73.70mm x 22.20mm x 16.10mm)
- **Operating Temperature** — 32°F to 140°F (0°C to 60°C)
- **Storage Temperature** — -4°F to 185°F (-20°C to 85°C)
- **Simple** — just plug into a USB port
- **Safeguarded** — includes Password Traveler
- **Convenient** — does not require Administrator rights to access the Privacy Zone
- **Practical** — loop supports most key rings
- **Guaranteed** — five-year warranty

Kingston Part Number:

DT310/256GB

¹ Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Guide at kingston.com/flash_memory_guide.
² Speed may vary due to host hardware, software and usage.
