

DataTraveler 50

kingston.com/usb

Compact, capless storage in a metal case.

DataTraveler® 50 is a lightweight USB Flash drive available in capacities from 8GB to 128GB¹. The drive's compact, capless design features a metal casing that complements any compatible device and colorful accents that range by drive capacity. Backward compatible with existing USB 2.0 ports for convenience, this USB 3.1 Gen 1 (USB 3.0)² drive ensures easy data transfer between devices. DT 50 is backed by a five-year warranty, free technical support, and legendary Kingston® reliability.

¹ Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Memory Guide at kingston.com/flashguide.
² USB 3.1 Gen 1 performance requires a host device with a USB 3.0 or 3.1 port.
³ Speed may vary due to host and device configuration.
