1. Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Memory Guide at [kingston.com/flashguide](http://kingston.com/flashguide).

2. USB 3.1 Gen 1 performance requires a host device with a USB 3.0 or 3.1 port.

3. Speed may vary due to host and device configuration.
