

Kingston IronKey Locker+ 50 USB Flash Drive

XTS-AES Encrypted for Data Protection with Automatic USBtoCloud® Back Up

Kingston IronKey™ Locker+ 50 USB Flash drives provide consumer-grade security with AES hardware-encryption in XTS mode, including safeguards against BadUSB with digitally-signed firmware and Brute Force password attacks. LP50 is also TAA compliant.

LP50 now supports multi-password (Admin and User) option with Complex or Passphrase modes. Complex mode allows for passwords from 6-16 characters using 3 out of 4 character sets. New passphrase mode allows for a numeric PIN, sentence, list of words, or even lyrics from 10 to 64 characters long. Admin can enable a User password, or reset the User password to restore access to data. To aid in password entry, the "eye" symbol can be enabled to reveal the typed in password, reducing typos leading to failed login attempts. Brute Force attack protection locks out User upon 10 invalid password entries in a row and crypto-erases the drive if the Admin password is entered incorrectly 10 times in a row. Additionally, a built-in virtual keyboard shields passwords from keyloggers or screenloggers.

Locker+ 50 is designed for convenience with a small metal casing and built-in key loop to take data anywhere. LP50 also features optional USBtoCloud (by ClevX®) backup to access data on the drive from your personal cloud storage through Google Drive™, OneDrive (Microsoft®), Amazon Cloud Drive, Dropbox™ or Box. LP50 is easy for anyone to setup and use, with no application installation required; all the software and security needed is already on the drive. Works on both Windows® and macOS® so users can access files from multiple systems.

- XTS-AES Encryption with Brute Force and BadUSB Attack Protection
- Multi-Password (Admin and User) Option with Complex/Passphrase Modes
- New Passphrase Mode
- Automatic Personal Cloud Backup
- Additional Security Features

Key Features

■ Hardware-encrypted USB Drive with XTS-AES Encryption

Safeguard important data with built-in protection against BadUSB & Brute Force attacks.

■ Multi-Password (Admin and User) Option with Complex/Passphrase Modes

Admin can reset a User password to restore User's access to data.

■ New Passphrase Mode

Select between Complex or Passphrase password mode. Passphrases can be a numeric PIN, sentence with space characters, list of words, or even lyrics – from 10 to 64 characters long.

■ Automatic Personal Cloud Backup

Access data stored on IronKey Locker+ 50 from your personal cloud storage.

■ Additional Security Features

Reduce failed login attempts and frustration by enabling the "eye" button to view the typed password. Use virtual keyboard to shield password entry from keyloggers and screenloggers.

Specifications

Interface	USB 3.2 Gen 1
Capacities ¹	16GB, 32GB, 64GB, 128GB, 256GB
Connector	Type-A
Speed ²	<p>USB 3.2 Gen 1 16GB – 256GB: 145MB/s read, 115MB/s write</p> <p>USB 2.0 16GB – 256GB: 30MB/s read, 20MB/s write</p>
Cloud Services Supported	Google Drive™, OneDrive (Microsoft), Amazon S3, Dropbox™, Box
Dimensions	60.56mm x 18.6 mm x 9.75 mm
Operating Temperature	0°C to 50°C
Storage Temperature	-20°C to 85°C
Compatibility	USB 3.0/USB 3.1/USB 3.2 Gen 1
Minimum System Requirements	Two (2) free consecutive drive letters required for use ³
Warranty/support	Limited 5-year warranty, free technical support. A 5-year license (upon activation) to USBtoCloud is included with every IKLP50 drive. Upon expiration of software license, USBtoCloud offers licensing options directly from ClevX®.
Compatible with	Windows® 11, 10, macOS® 11.x – 14.x

USBtoCloud® by ClevX, LLC.

1. Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's [Flash Memory Guide](#).
2. Speed may vary due to host hardware, software and usage.
3. First free drive letters after physical devices such as system partition, optical drives, etc.
