

HyperX Savage SSD

kingston.com/hyperx

Powerful performance, unparalleled design.

HyperX® Savage solid-state drive offers extreme performance for the extreme performer. The fastest HyperX SATA-based SSD, it's powered by a quad-core, 8-channel Phison S10 controller that delivers incredible speeds of up to 560MB/s read and 530MB/s write, with read/write IOPS up to 100k/89k. The result is ultra-responsive multitasking and an overall faster system that maintains performance even as the drive fills up.

With its low profile and slim, 7mm form factor, HyperX Savage SSD fits in most notebooks, desktops and HTPC builds. Its unique look, with high-quality red steel and aluminium casing and diamond-cut design, helps you stand out in the crowd and complements the latest PC hardware.

It's available in a bundle kit that includes everything you need to install Savage in your existing system, including a USB 3.0 enclosure to transfer data from 2.5" hard drives; a 2.5"-3.5" adapter to mount in a desktop environment; SATA data cable; multi-bit screwdriver and Acronis® data migration software. HyperX Savage SSD is 100 percent factory tested and backed by a three-year warranty, free technical support and legendary reliability.

¹ Some of the listed capacity on a Flash storage device is used for formatting and other functions and is thus not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash memory Guide at kingston.com/flashguide.

² Based on "out-of-box performance" using a SATA Rev. 3.0 motherboard. Speed may vary due to host hardware, software, and usage. IOMETER random 4k random read/write is based on 8GB partition.

³ Total Bytes Written (TBW) is derived from the JEDEC Client Workload (JESD219A).

⁴ Drive Writes Per Day (DWPD)

⁵ Operating system software support: Windows® 10, 8.1, 8, 7 (SPI)
